

Dependable Rolled Underlayments

Whether tile cracking, noise or moisture is an issue we have a solution to keep floors durable and comfortable.

These high performance rolled underlayment products work well in both residential and commercial settings.

-  **KeedeRoll™ 100**
An entangled net uncoupling mat designed to keep tiles isolated and prevent cracking.
-  **KeedeRoll™ 300**
A waterproof uncoupling mat designed to keep tiles isolated and prevent cracking, while protecting your subfloor from moisture damage.
-  **KeedeRoll™ MT**
A fast, durable and cost effective solution to protect tile and reduce unwanted noise in one roll.
-  **QQ Step Soft™**
A sound deadening rubber mat designed to promote quiet living and improve sound ratings.
-  **KeedeLath™**
A synthetic self-furring lath that is a lightweight and stronger alternative to metal lath.
-  **KeedeBand™**
a triple layer waterproofing band designed for KeedeRoll 300™ waterproofing installations.

Rolled Underlayment Products

KeedeRoll™ 100

This uncoupling mat provides a fast, durable and cost effective solution for tile installation. The technology works by absorbing subfloor movements and reinforcing mortar; while the fabric allows for shearing movement to take place by separating the subfloor from the tile or natural stone.

Packaging:
60 square foot roll
200 square foot roll

KeedeRoll™ 300

This product offers the same uncoupling benefits of KeedeRoll™ 100, but with added moisture protection. The specially designed fabric is completely water resistant, forming a barrier between your subfloor and the room.

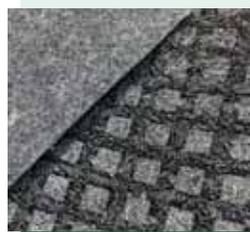

Packaging:
60 square foot roll
200 square foot roll

KeedeRoll™ MT

KeedeRoll™ MT combines our patented Muffling Technology with our uncoupling KEEDE technology to create a quiet yet durable subfloor. Specifically designed for ceramic tile, this product contains all the benefits of both an uncoupling mat and a sound mat.

Packaging:
200 square foot roll

QQ Step Soft™

This product is a recycled rubber flooring underlayment for sound isolation, impact noise control and crack isolation. The rubber material provides a resilient layer within the flooring assembly for reducing vibration noise.

Packaging:
3 mm / 200 square foot roll
5 mm / 100 square foot roll

KeedeLath™

This product is a self-furring synthetic lath that is easier to install and a lighter alternative to self-furred metal lath. The unique patented design replaces old metal lath in a variety of flooring and wall applications. It is constructed of entangled nylon mono-filaments incorporated into a fiberglass grid.

Packaging:
100 square foot roll

KeedeBand™

This product is a complimentary product to the KeedeRoll™ 300 uncoupling mat. It is a 5" wide, triple layer waterproofing band for use under the seams and perimeter of the wall where KeedeRoll™ 300 is installed.

Packaging:
5" x 50'
