

DUPONT™ TYVEK™ THERMAWRAP™ R5.0

This fact sheet contains important details about DuPont™ Tyvek® ThermaWrap™ R5.0, a durable, insulating, vapor permeable water resistive and air barrier. Read it carefully.

TYPE OF INSULATION

Blanket

R-Value	Length	Width	Thickness	Sq. Ft. of Insulation in Package
5.0	40'	4'	1.5'	160 ft ²

READ THIS BEFORE YOU BUY

The chart shows the R-value of this insulation. R means resistance to heat flow. The higher the R-value, the greater the insulating power. Compare insulation R-values before you buy. There are other factors to consider. The amount of insulation you need depends mainly on the climate you live in. Also, your fuel savings from insulation will depend upon the climate, the type and size of your house, amount of insulation already in your house, and your fuel use patterns and family size. If you buy too much insulation, it will cost you more than what you'll save on fuel.

To get the marked R-value, it is essential that this insulation be installed properly. If you do it yourself, get instructions and follow them carefully. Instructions do not come with this package. Savings vary.

KEY BENEFITS:

- Building wrap that provides air, water and THERMAL protection in one roll.
- Provides continuous exterior insulation and offers an R-value of 5.0
- Helps prevent air flow through the walls, improving energy efficiency and occupant comfort
- Helps prevent bulk water penetration into the wall assemble that can help prevent moisture accumulation in the wall cavity, reducing the risk of mold and water damage
- Vapor permeable to allow interior moisture to escape to the outside, enhancing wall drying
- Can be installed shingle fashion
- Contains 20% pre-consumer recycled polyolefin by weight
