

**Panasonic**

**High performance  
built for the long run**

## Cost-efficient code compliance made easy

**WhisperValue DC™**  
VENTILATION FAN

Though small in size, Panasonic's WhisperValue® DC™ is big on performance. The Pick-A-Flow™ Speed Selector lets you choose desired airflow while a powerful, efficient ECM Motor with SmartFlow™ technology ensures optimum CFM output—ideal for long or difficult runs. Perfect for multi-family applications, it's the lowest profile ENERGY STAR® rated fan on the market and fits easily into a 2x4 stud bay. Plus, it's UL listed for safe and simple wall or ceiling installation and can be used to comply with green building codes. Optional fan models include LED lighting, multi-speed operation for ASHRAE 62.2 compliance, or an intelligent condensation sensor that automatically controls moisture.
