## 3. PRODUCT DESCRIPTION

**USES:** Pango Sealant Form is designed to be used in conjunction with Pango® Wrap, Pango® Sealant, and Pango Claw®; it is engineered to adhere to Pango Wrap and provide a confined area in which Pango Sealant can be placed for sealing around penetrations in Pango Wrap.

**COMPOSITION:** Pango Sealant Form is a low-density, cross-linked, closed-cell polyethylene foam with an acrylic, pressure-sensitive adhesive.

**SIZE:** Pango Sealant Form is 1/2" x 1/2" x 24". Pango Sealant Form comes in 200 pieces per case (10 boxes of 20 pieces).

## 4. TECHNICAL DATA

**TABLE 4.1: PHYSICAL PROPERTIES OF PANGO SEALANT FORM**

PROPERTY	RESULTS
Dimensions	1/2" x 1/2" x 24"
Color	White
Weight	0.11 oz (3.1 grams)

## 5. INSTALLATION

**PENETRATIONS:** Make sure the area of adhesion is free of dust, dirt, debris, moisture, and frost to allow maximum adhesion. Pango Sealant Form should be used in conjunction with Pango Claw when sealing around penetrations with Pango Sealant. When ready to apply Pango Sealant Form, remove the release liner and press Pango Sealant Form firmly against Pango Wrap and along the outer edge of Pango Claw, following its path while not overlapping its textured surface. Conversely, install Pango Sealant Form first and subsequently apply Pango Claw along the form's interior edge. Install Pango Sealant Form between 40°F and 110°F. Pour Pango Sealant completely inside of the Pango Sealant Form to create a seal around the encompassed penetrations.

Review Pango Wrap's complete installation instructions prior to installation.

## 6. AVAILABILITY & COST

Pango Sealant Form is available through our network of building supply distributors. For current cost information, contact your local Pango distributor or Stego Industries' Sales Representative.\*
