## Effective healthy air solution gets a BOOST

Our easy-to-install 100 CFM Intelli-Balance Energy Recovery Ventilator is now even more effective. When large gatherings in the home require greater ventilation, the new occupant-controllable BOOST function increases airflow on demand. With the flip of a switch, two ECM motors with Smart Flow™ technology BOOST output power to provide healthier indoor environments.

### Intelli-Balance™ 100

#### NEW!

When large gatherings require more ventilation, call on Intelli-Balance with BOOST to increase airflow.

#### BALANCED

Expels stale polluted air while supplying fresh, filtered air for tightly built envelopes

#### EFFICIENT

'Set it and forget it' operation provides consistent, predictable airflow & helps reduce virus and bacterial exposure

#### VERSATILE

Ideal for new airtight homes and multi-family dwellings built to meet the latest codes and standards

Give your homes and your sales a healthy boost. Visit your local HVAC distributor or [www.intellibalance.com](http://www.intellibalance.com) to learn more today.
